**Decision of the Independent Liquor & Gaming Authority
Application for a packaged liquor licence – Harry's Liquor Glenmore Park**

We **approve** the application above under section 45 of the *Liquor Act 2007* — with the conditions set out in Schedule 1. The 6-hour closure period overrides any condition of the licence.

Statement of reasons

Overall, we are satisfied that the social impact of approving the application will not be harmful to the well-being of the local or broader community, while also promoting a balanced and responsible development of the industry.

Our main findings

The local community for the purposes of this decision is Glenmore Park. The broader community is the Local Government Area (LGA) of Penrith.

Positive social impacts

The proposed premises would be located in a new retail and residential precinct with reduced trading hours and no same day delivery.

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

Negative social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of the:

- proposed premises being located in a medium-density hotspot in the suburb for domestic assault and in a low-density hotspot for malicious damage to property
- higher rate of alcohol-attributable deaths in the LGA compared to NSW

- higher crime rates in the LGA compared to NSW for alcohol-related domestic assault and malicious damage to property
- SEIFA data indicating an average level of relative socio-economic advantage and disadvantage in the LGA compared to other communities in NSW.

However, we are satisfied that these risks are reduced by the:

- reduced trading hours
- business model not including same-day delivery of liquor
- absence of crime hotspots in the suburb for non-domestic assault or alcohol-related assault
- lower crime rates in the suburb compared to NSW for all offences we considered
- lower crime incident rates in the LGA compared to NSW for alcohol-related non-domestic assault and alcohol-related disorderly conduct
- lower saturation rates of packaged liquor licences in the suburb and LGA compared to NSW
- lower rate of alcohol-attributable hospitalisations in the LGA compared to NSW
- SEIFA data indicating an above average level of relative socio-economic advantage and disadvantage in the suburb compared to other communities NSW
- harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

The material we considered

We considered the following material when making our decision:

- the application material — including evidence that stakeholders and the community were notified about the application
- a community impact statement (CIS)
- the plan of the licensed premises and any authorisations
- a plan of management for the licensed business
- a development consent for the premises
- statistics from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics on the socio-economic status, liquor licence density, alcohol-related crimes rates and health issues in the local and broader communities
- stakeholder submissions and the applicant's response to them.

We also considered [Guideline 6](#) to assess the likely social impact to the local and broader community.

This decision will be published on the [Liquor & Gaming NSW website](#) in accordance with section 36C of the *Gaming and Liquor Administration Act 2007*.
